

# BACHELOR IN INTERNATIONAL & SOCIAL PROJECT COORDINATOR

**3A BACHELOR HAS BEEN AWARDED  
THE “VISA ACCREDITATION”  
WHICH IS THE HIGHEST LEVEL OF  
ACADEMIC RECOGNITION IN FRANCE**

## 3A

### THE SCHOOL OF RESPONSIBLE AND SOLIDARITY MANAGEMENT

For more than 35 years, the 3A school has been training operational professionals capable of managing projects in international organisations and who wish to be players of a better world.

Alongside prestigious sponsors, our school defends strong values such as ethics, justice, equality, openness to the world and respect of the earth's heritage. These values are, along with management science, at the heart of our teaching: geopolitics, languages, sustainable development, social and solidarity economy, anthropology or social responsibility.

Its recognition by the state, the visa for its Bachelor's degree (bac +3) and the RNCP level 6 and level 7 certifications of its Bac+ 3 and Bac+5 programs, shows that the 3A school is fully in line with the requirements of postsecondary education in France or abroad.

**CAMPUS : LYON**

**DURATION : 1 YEAR**

**CLASSES ON WEDNESDAYS, THURSDAYS, FRIDAYS**

SEPTEMBER INTAKE

# LE PROGRAMME

The 3A Bachelor is a program fully taught in English in International & Societal Development. Upon completion of the 3A Bachelor, students obtain a French Ministry of Higher Education degree, which opens doors to many career and graduate studies opportunities.

3A's Bachelor provides students with a unique combination of theoretical and practical skills. Students learn to design, develop, implement, and manage International operations.

The program deals with acquiring fundamental skills in administrative management, finance, human resource management and marketing while emphasizing a strong international, cultural and accountable dimension.

## A WORD FROM THE DIRECTOR

**JACQUES GALLOIS**  
PRESIDENT OF THE SCHOOL

More than expertise, more than techniques, we defend, above all, strong values in terms of ethics, justice, equality, open-mindedness to the world and respect for our Earth's legacy. Those values are not just "props" or lip service. They are at the center of our courses along with management sciences: geopolitics, languages, sustainable development, social and solidarity-based economy, anthropology, social responsibility are the guiding principles at our school. Our students have legitimate requirements: they want their job to be in agreement with their ideals. They want to be active players for a better world. Our mission is to prepare them for this life plan, giving them the means to effectively carry it out.
